

RABBIT R&D WEBINAR

Monday 21 March 2022 on Zoom

1000–1200 (AWST— WA)

1130–1330 (ACST— NT)

1130–1330 (AEST— Qld)

1230–1430 (ACDT— SA)

1300–1500 (AEDT — ACT, NSW, Vic)

This free webinar, hosted by the Centre for Invasive Species Solutions in partnership with Rabbit Free Australia, brings together Australia’s leading experts to share their insights on best practice rabbit biocontrol, its benefits and raising awareness of rabbit issues.

- **Andreas Glanznig** (CEO, Centre for Invasive Species Solutions) will open the online seminar.
- **David Peacock** (Peacock Bio-Science) and **Graeme Finlayson** (Bush Heritage Australia) will speak on the environmental benefits from rabbit biocontrol.
- **Talia Hardaker** (ACRE Economics and formerly with AgTrans Research and Consulting) will speak on the production and economic benefits of rabbit control.
- **Pat Taggart** (NSW Department of Primary Industries) and **Tanja Strive** (CSIRO) will speak on RHDV in the field and best practice management for RHDV-K5.
- **Richard Price** (Portfolio Director, Research, Centre for Invasive Species Solutions) will lead a Q&A session and close the online seminar.

Register to attend [via this link](#).

Attendees will receive a link to the webinar via email 24 hours prior to the event.

Attendees will have the opportunity to put questions to speakers via a Q&A function and to participate in live polls on various rabbit control issues.

Reference materials will be available to attendees following the webinar.

Please direct any questions to Rabbit Free Australia via this [contact form](#).

Regeneration of native vegetation at Thackaringa Station, Broken Hill, following the use of RHDV1 and conventional rabbit control measures.
